New York, April 23, 1847.

Dr. Townsend: I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At least i raised large quantities of blood, had night sweats and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla but a stront time, and there has a wonderful change been wrought to me. I am now able to walk all over the city.—I raise no blood, and my c high has left me. You can well imagine that I am thankful for these results. Your obedient servant.

LOST HER SPEECH.

The annexed certificate tells a simple and truthful story of suffering and relief. There are thousands of similar cases in this city and Brooklyn, and yet there are thousands of parents let their children die for fear of being humbugged or to save a few shillings.

Brooklyn, Sept. 13, 1847.

Dr. Townsend: I take pleasare in stating, for the benefit of those whom it may concern, that my daughter, two years and six mouths old, was afflicted with general debility and less of speech. She was given up as past receivery by our family physician; but fortunately I was recommended by a friend to try your Sarsaparilla. Hef-ore having used one byttle she recovered her speech and was enabled to walk alone, to the nat mishment of all who were acquainted with the circumstances. She is now quite well, and in much better health than she has been for 18 months past.

TWO CHILDREN SAVED.

Very few families indeed—in fact we have not heard of one—that used Dr. Towascod's Sarsaparilla in time, but any children the past Summer, while those that did not, sickened and died. The cereificate we publish below is conclusive evidence of its value, and is only another instance of its saving the lives of children:

Dr. Towascan—Dear Sir: I had two children cared by your Sarsaparilla of the summer compatint and dy sentary; one was only 15 month old and the other 3 years. They were very much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed us that we must lose them, we resolved to try your Sarsaparilla we had beard as much of, but had little confidence, there being so much stuff advertised that is worthless; but we are thankful that we did, for it infloablethly saved the lives of both. I write this that others may be induced to use it. Yours, respectfully.

Dear Sir.—I have read with much interest, your little tragatisk upon the "causes, treatment and care" of the febrile diseases which have so extensively prevaled in our country during the last few months—an interest increased no doubt, by the fact that I have individually suffered a much from them. Though I feel myself very incompetent to judge safely upon a subject s: entirely professional, yet your theory seems to me well reasoned, and your c unchasions just, and I think within, that your pumphlet is calculated to produce much practical good.

Speaking of the medicine he may:—It fully justified your fastlering expectations, and as an energy convenient, and popular remedy, my own experience, so far, induces me to believe that it will prove a great public benefit. I am pleaned to learn plat you have recoulty established several agencies for its disposition—though I regret that, with a view to a more general discensination of it, you should have found it necessary to remove from your present residence among us. With much respect I have the bourt to be, sir,
